

*Beauty* IN THE DETAILS®

Masonite. The Beautiful Door.®

 Masonite®

*Experience true stile & rail craftsmanship and wood door beauty with Masonite's complete line of stile & rail interior doors...*

Masonite offers a complete line of interior stile & rail wood doors to meet any architectural or design requirement. The Wood Panel Series features traditional and contemporary panel configurations, plus a tremendous variety of wood species. To increase light in any room, choose the French Door Series. This family includes a wide array of glass, wood species, lite and panel options. The Crown™ Series offers the added advantage of MDF (medium density fiberboard). Crown doors feature traditional stile & rail craftsmanship, with the performance benefits of MDF. To round out the line, a full line of 1-3/8" Miami™ louver doors can be used to meet specific design needs and increase ventilation. Also, the 1-1/8" bifolds are functional and beautiful.

# Anatomy of Stile & Rail Doors

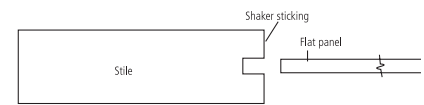

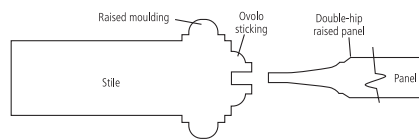

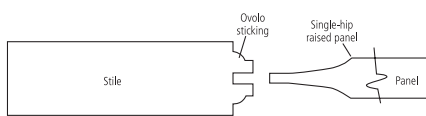

## Glossary of Terms

**Rails:** Horizontal sections of the door between stiles (top, cross or intermediate, lock, and bottom)

**Stiles:** Vertical edges of the door

**Mullion:** Vertical section of the door between the panels

**Panels & Sticking:** Panels are the interior sections of the door between the stiles and rails, Sticking refers to the moulding profile on the interior edges of the stiles and rails

**Muntin:** Bar that separates panes of glass.

## Warranty

Masonite interior stile & rail doors are manufactured in controlled conditions using only top-quality products. The doors are warranted for one year against any defects which would prevent normal utilization. The doors must be carefully cared for and the guarantee will only be valid if the "Door Care" conditions are met. Other warranty terms and conditions may apply. Please contact Masonite to obtain a copy of the limited warranty.

## Door Care

- Doors must be stored flat and fully protected against humidity. When doors are moved, they must be lifted, eliminating any sliding of one door on another.
- In order not to change the door's balance, a maximum of 1/2" may be removed on its width (1/4" on each side). Any modification to the door's height must not exceed 1" and should be removed from the bottom rail only.
- When the door is hung, a good quality sealant must be applied immediately to minimize humidity absorption. Special attention must be given to finish all six sides of the door, including the top and bottom of the door. Doors must be finished on all sides to have a valid warranty.

Home interiors can be enhanced through increased light, finishing accents, furnishings and art. All of which add beauty and comfort to the home. Masonite® French Doors accentuate any room with their natural, beautiful, wood construction. They are a truly elegant décor enhancement that increases the brightness and functionality of any home. The variety of panel, glass designs and wood specie options make a significant design difference inside any home. Specie options include clear pine, knotty pine, knotty alder, primed, oak, cherry, poplar, hemlock and maple.

*Masonite. The Beautiful Door.®*

*Beauty* IN THE DETAILS®

### *Masonite's Commitment*

*At Masonite, employees from all parts of the company – sales, marketing, research and development, customer service and manufacturing – understand that people love their homes. In the past, homes were purchased to meet functional needs. Today, homes are purchased to meet specific lifestyles and to satisfy the need to create multiple living environments within a single home. To meet these lifestyle needs, Masonite is continually creating new and innovative products that will make every home more beautiful, more valuable and more enjoyable. With the ultimate goal of adding beauty and value to every home, Masonite's products are designed and constructed to exacting standards and specifications. All materials – wood, fiberglass, steel or composites – are engineered and carefully selected to ensure lasting durability and timeless performance. For individuals who are building, renovating or redecorating, Masonite products are certain to beautify and accentuate a wide array of architectural home styles.*
